### Location

CINCINNATI, OHIO

OPEN TO RELOCATION NATIONWIDE!

## Introduction

Fell in love with coding at the age of 11. The passion for it still burns today and I have tons of projects to show for it. I am a natural problem solver with hopes to pull technology of the future into today.

## Projects

Projects, like these, helped turn the theoretical knowledge into experience.

### Key Skills

C#  
Multithreading  
Client-Server  
WinForms

### Playstation Mod Menu

7/14/21 - Current

Modifies, removes, and imitates controller inputs for Playstation 4 and Playstation 5. Created for education on C# and to explore advanced programming concepts.

### Key Skills

Python  
Web Scraping  
API Integration

### Stock Update Bot

8/2/21 - Current

If there's an item that fluctuates in and out of stock, this bot can send text alerts to all subscribers, notifying them when they can make a purchase. Bypasses many bot-stoppers by imitating human verification.

## Education

The Ohio State University  Senior  
Pursuing B.S. Computer Science and Engineering

### Relevant Coursework

C / C++   GUI   Data Structures  
Networks & Security   Cloud Computing

## Personality Traits

Self-Motivated   Problem-Solver   Calculated  
Results-Oriented   Accountable   Ambitious
